

## Public Disclosure of Student Achievement

**Institution Name: Inter American University of Puerto Rico, Inc.**

**Business Unit(s) included in this report: Entrepreneurial and Management Sciences Department**

**Academic Period Covered: 2022 - 2023**

**Date Report Posted: 11/27/2023**

PROGRAM	MEASURE	TARGET	RESULT
BBA Accounting	Graduation Rate	59%	21%
BBA Entrepreneurial Development and Management	Graduation Rate	59%	33%
BBA Finance	Graduation Rate	59%	100%
BBA Human Management Resources	Graduation Rate	59%	30%
BBA Information Technology	Graduation Rate	59%	50%
BBA Marketing	Graduation Rate	59%	29%
MBA Accounting – Internet	Graduation Rate	51%	40%
MBA General Business Administration	Graduation Rate	51%	100%
MBA Finance	Graduation Rate	51%	50%
MBA Human Resources	Graduation Rate	51%	40%
MBA Industrial Management	Graduation Rate	51%	75%
MBA Managerial Information Systems	Graduation Rate	51%	60%
MBA Managerial Information Systems – Internet	Graduation Rate	51%	60%
MBA Marketing	Graduation Rate	51%	0%
PHD Entrepreneurial Management – Human Resources	Graduation Rate	51%	0%

PHD Entrepreneurial Management – Interregional and International Business	Graduation Rate	51%	0%

**Calculations for Measures**

<b>MEASURE</b>	<b>DESCRIPTION AND HOW IT WAS CALCULATED</b>
Graduation Rate for Undergraduate Programs Cohort 2017	Provide by the Investigation, Assessment and Planning Institutional
	<p>To calculate undergraduate graduation rates, the follow-up cohort is first selected. In this report, the follow-up cohort for high school students was defined as follows:</p> <ul style="list-style-type: none"> <li>· New students entering high school level programs.</li> <li>· Your admission type is Regular</li> <li>· Enrolled full time (Full Timers) in their first FALL term.</li> </ul> <p>Once the cohorts were selected for each year of entry, follow-up was carried out over the next six academic years to determine how many of these students graduated from the Institution. The number of students who graduated was then divided by the base cohort and multiplied by one hundred to calculate the cumulative graduation rate. The six-year cumulative graduation rate reflects the percentage of students in the cohort who graduated in six years or less. The formula is as follows: % Graduation = (Number of graduates / Number of the cohort) X 100</p>
Graduation Rate for Graduate Programs Cohort 2017	Provide by the Investigation, Assessment and Planning Institutional
	<p>To calculate graduate graduation rates, the follow-up cohort is first selected. In this report, the follow-up cohort for graduate level students was defined as follows:</p> <ul style="list-style-type: none"> <li>· New students entering master's and doctoral level programs.</li> <li>· Your admission type is Regular</li> <li>· Enrolled full time (Full Timers) in their first FALL term.</li> </ul> <p>Once the cohorts were selected for each year of entry, follow-up was carried out over the next four academic years to</p>

	<p>determine how many of these students graduated from the Institution. The number of students who graduated was then divided by the base cohort and multiplied by one hundred to calculate the cumulative graduation rate. The four-year cumulative graduation rate reflects the percentage of students in the cohort who graduated in four years. The formula is as follows: % Graduation = (Number of graduates / Number of the cohort) X 100.</p>
