XII. MILITARY LEAVES AND WITHDRAWLS A. Total Withdrawal Reimbursement:

- 1. If a student is called to active duty, or is activated due to a national emergency, and presents official evidence to this effect, every effort will be made to ensure that the student may benefit from the different types of study programs available to avoid withdrawing from his or her courses. Withdrawals should be the last resort.
- 2. In the case of total withdrawals, the reimbursement will be made in accordance with the provisions of federal Title IV/and Military TA.

The schedule for the return of unearned TA funds are based on a proportional daily calculation up to sixty percent (60%). To calculate reimbursement to the government the university follows a daily formula where:

Days earned / Total term days a reimbursement will be calculated if the percentage is less than sixty percent (60%).

An example calculation follows:

Term	Total days	Earned days	Unearned %	Comments
Semester	111	66	40%	60% of course completed
Trimester	90	54	40%	60% of course completed
Bimester	65	39	40%	60% of course completed
Intensive	11	7	40%	60% of course completed
Summer	21	13	40%	60% of course completed

B. Reimbursement by Course – Return TA Policy:

If a Service member using Tuition Assistance withdraws from a course before completing sixty percent (60%) of the period of enrollment, the Institution will calculate the amount of the Tuition Assistance the student did not earn and return these funds to the appropriate military service. The amount of unearned TA equals the difference between Tuition Assistance that was dispersed and the amount of Tuition Assistance that was earned. This earned TA calculation is based on a percentage of the calendar days completed divided by the total calendar days in the enrollment period. There is no return for students withdrawing after sixty percent (60%) of the academic term.

The feature !-

Number of Days Completed / Total days in the enrollment period* = Percent Earned

* Total Days of the Term (from start to end date)
